

EDUCATION

The future of learning

Explore a new way of floral education.

Dear reader!

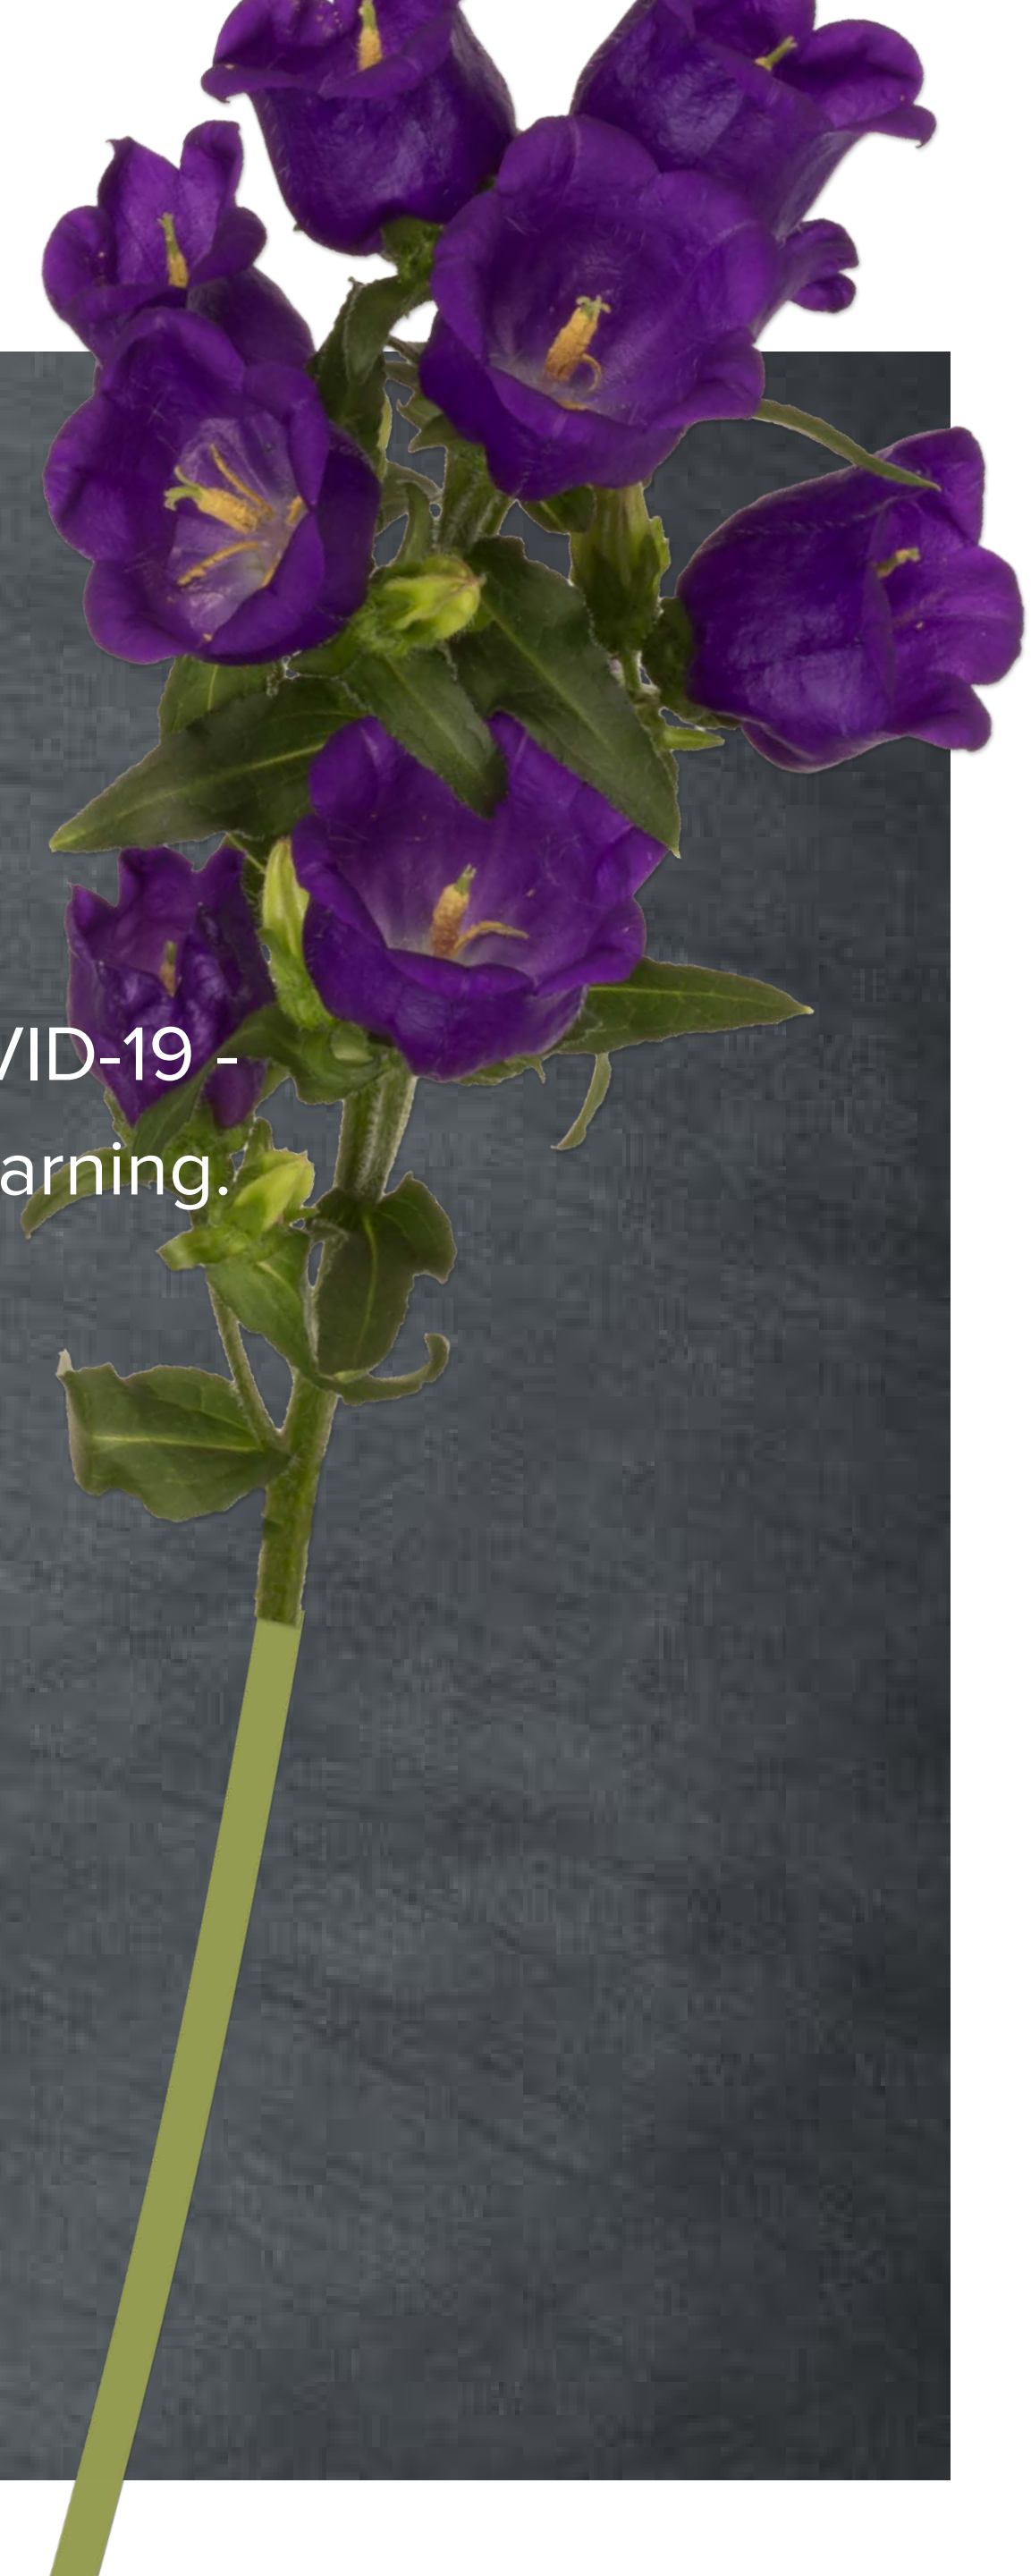

Thanks for your time, we'll keep it short.

It's not just this moment - in times of COVID-19 - that we are searching for new ways of learning.

Many students are digital natives, and this rises every new generation.

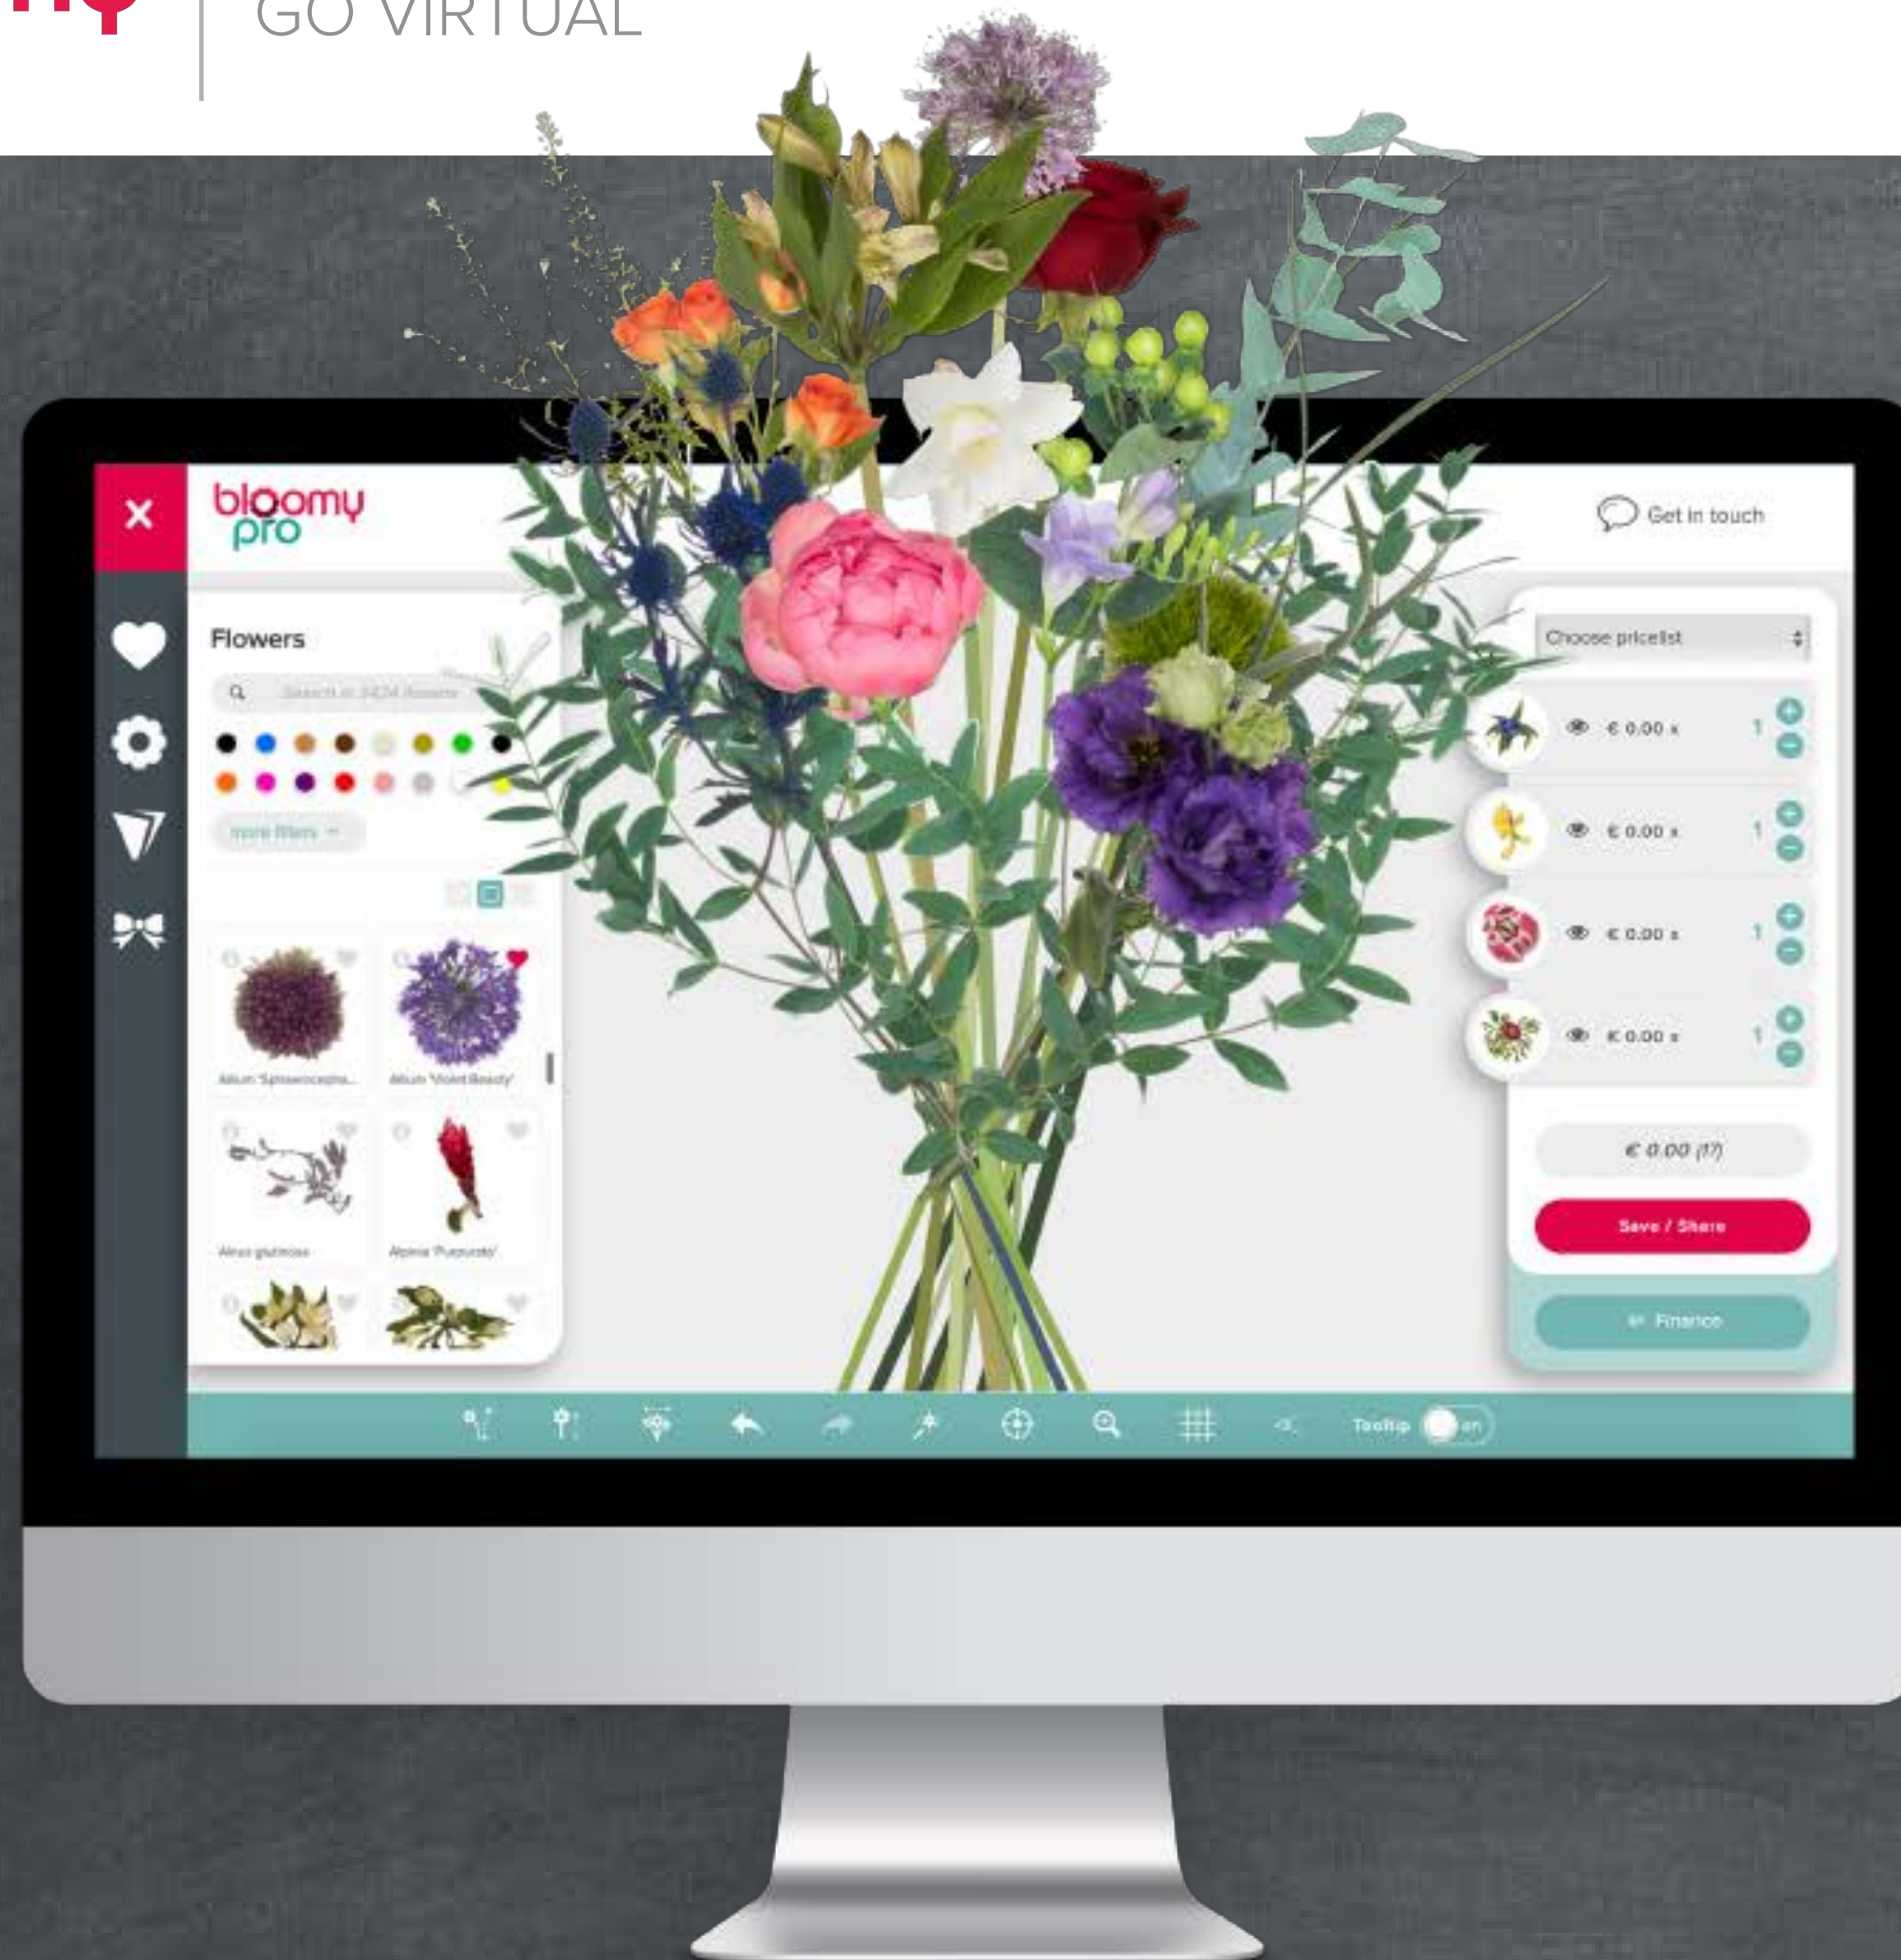

BloomyPro can help you with a new way of educating:

- Work virtual
- Teach with 3877+ flowers.
- Give lessons wherever and whenever.

A photograph of four young adults, three women and one man, sitting around a wooden table in a casual setting. They are all smiling and looking at a laptop screen. The man on the left is wearing a grey sweater. The woman next to him is wearing a blue denim shirt over a white t-shirt. The woman on the right is wearing a white sweater and glasses. A fourth person is partially visible on the far right. There are coffee cups on the table. The background shows a white brick wall and a wooden door.

Today's students are
florists of the future

A new way of educating:

Arrange flowers virtual.

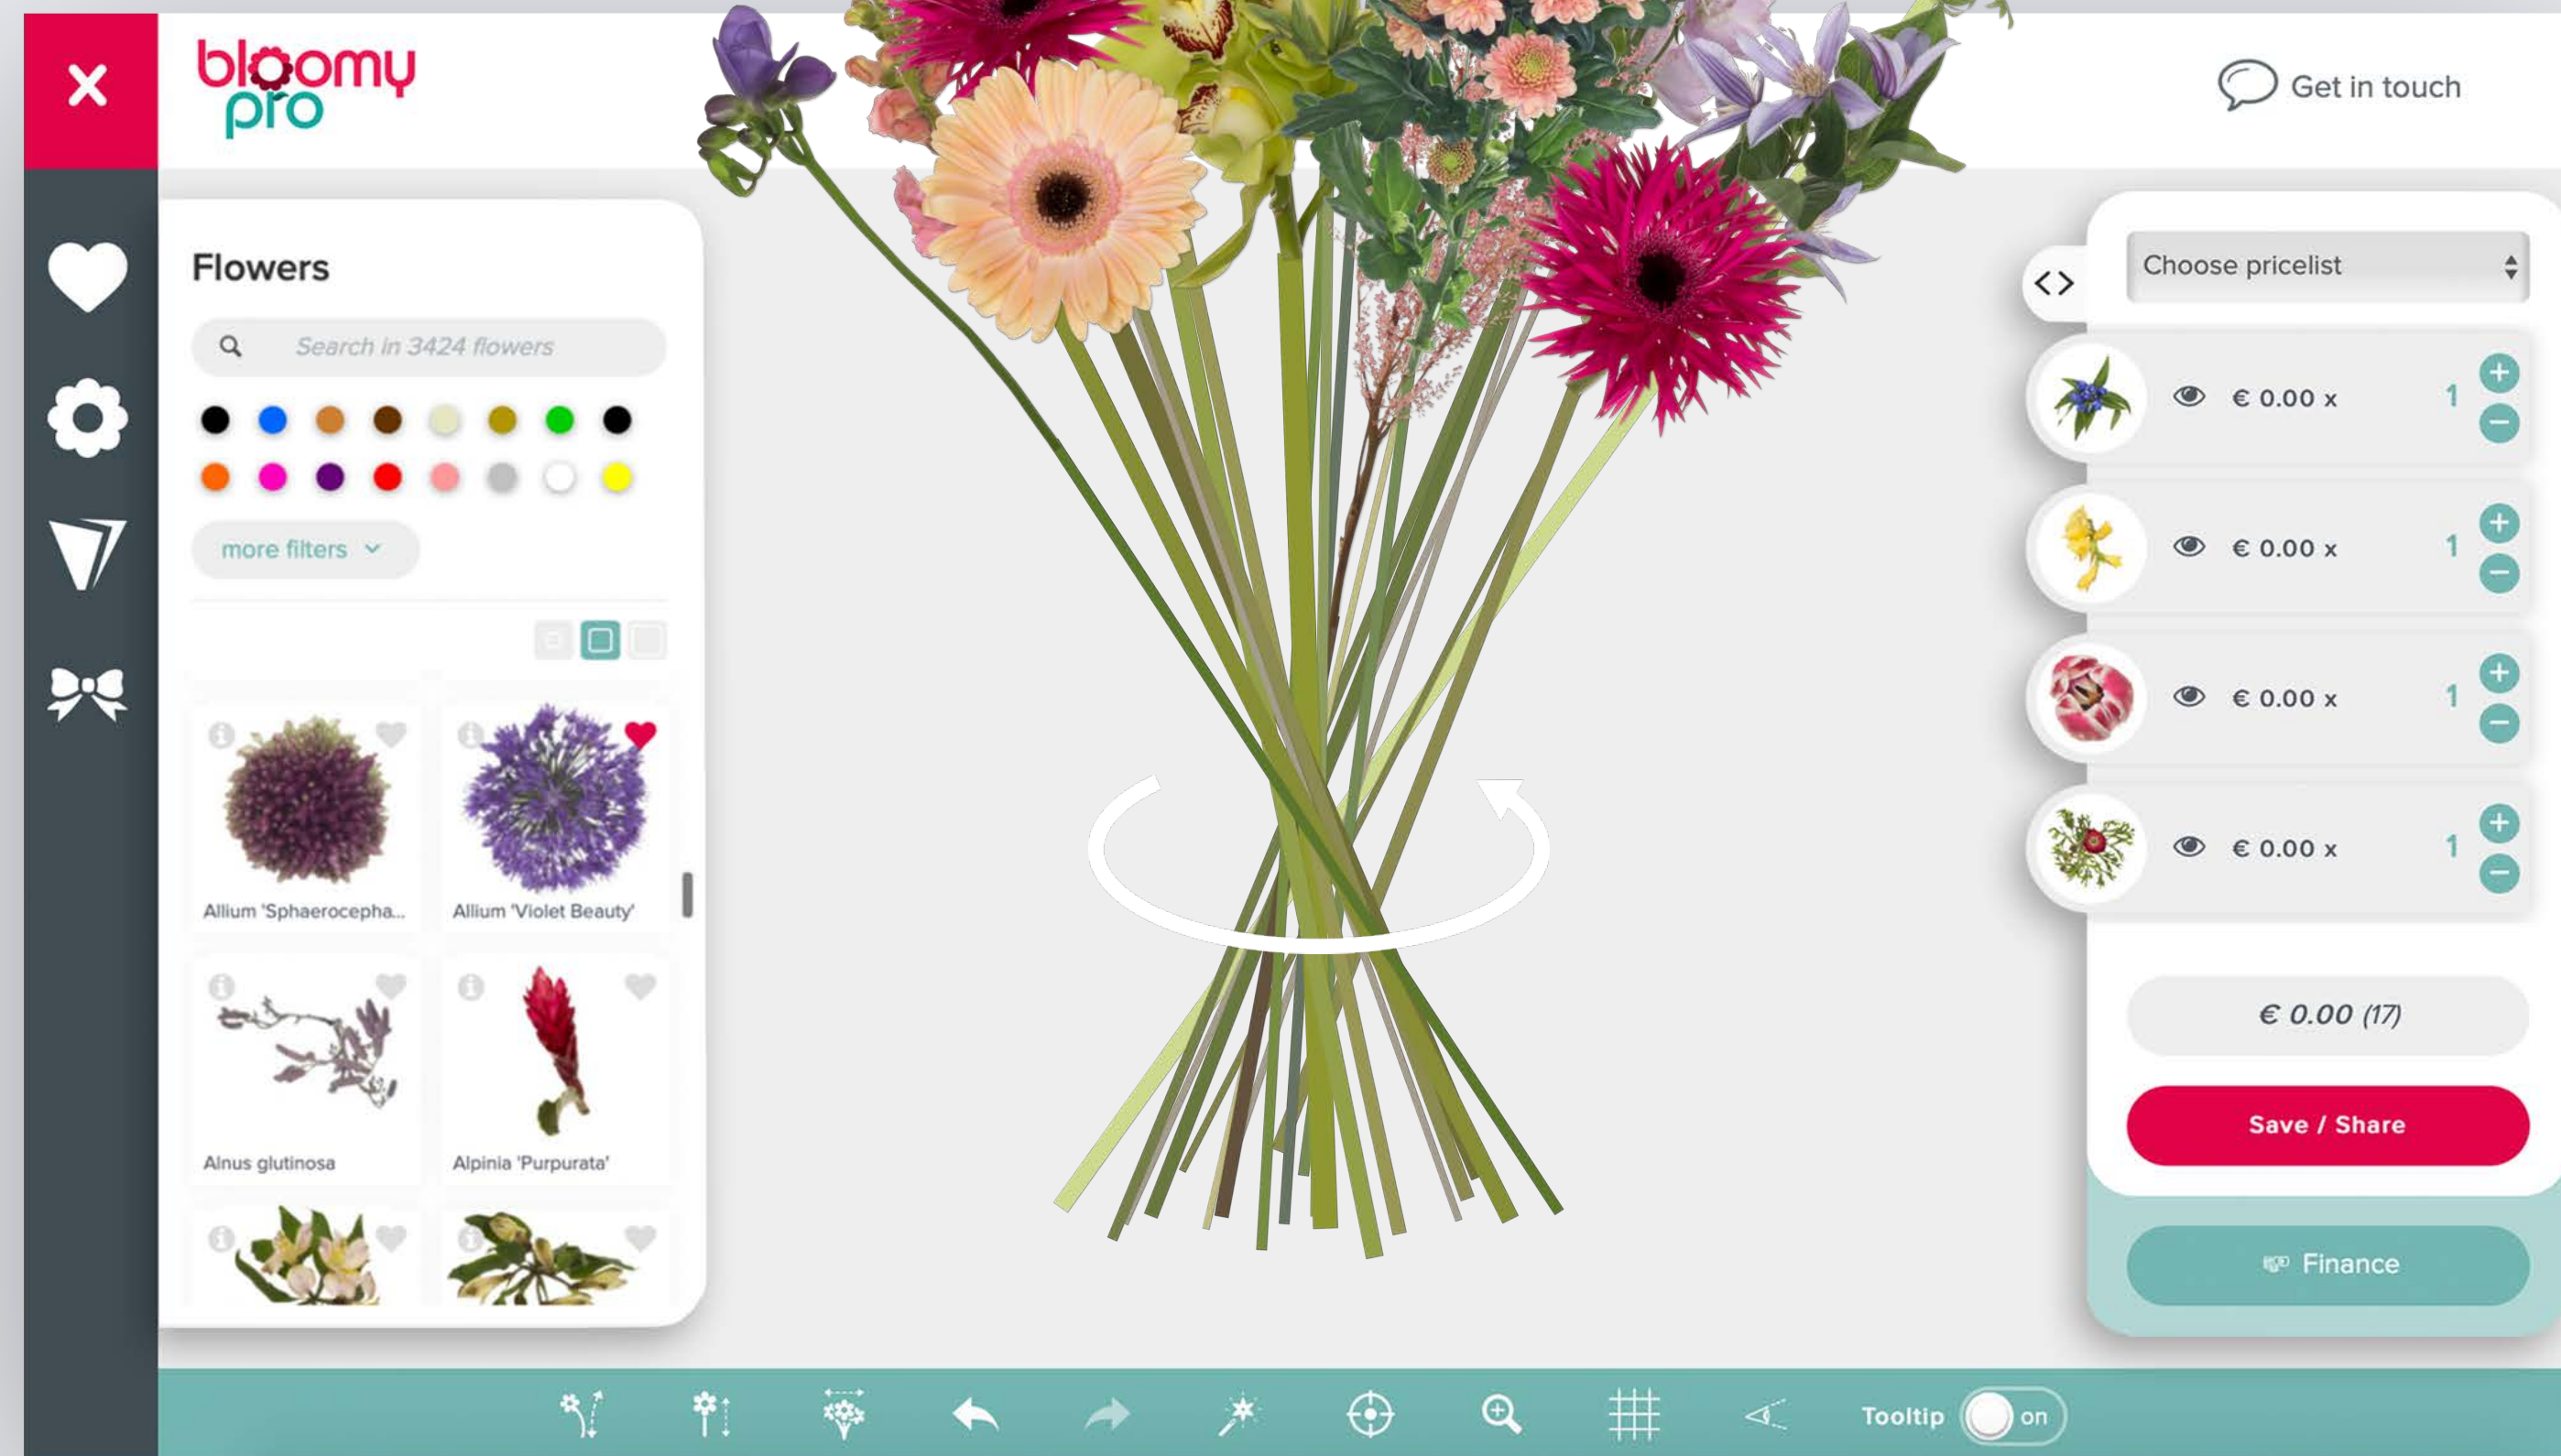

**We
digitized
3877
flowers.**

Plus 1832 covers
and 422 stickpins

How does it work?

Choose all flowers you want (You can even add sleeves and accessories)

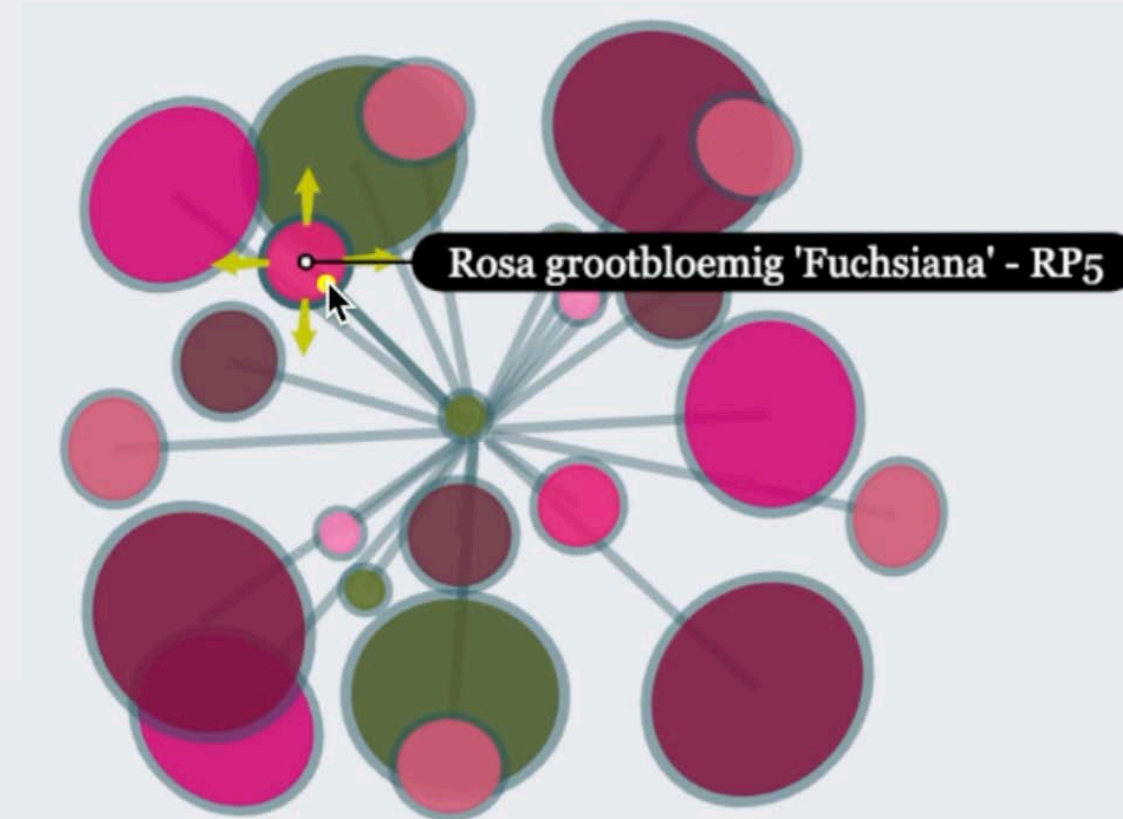

Change scale, binding, spacing..

Overview of your flower recipe

Calculate!

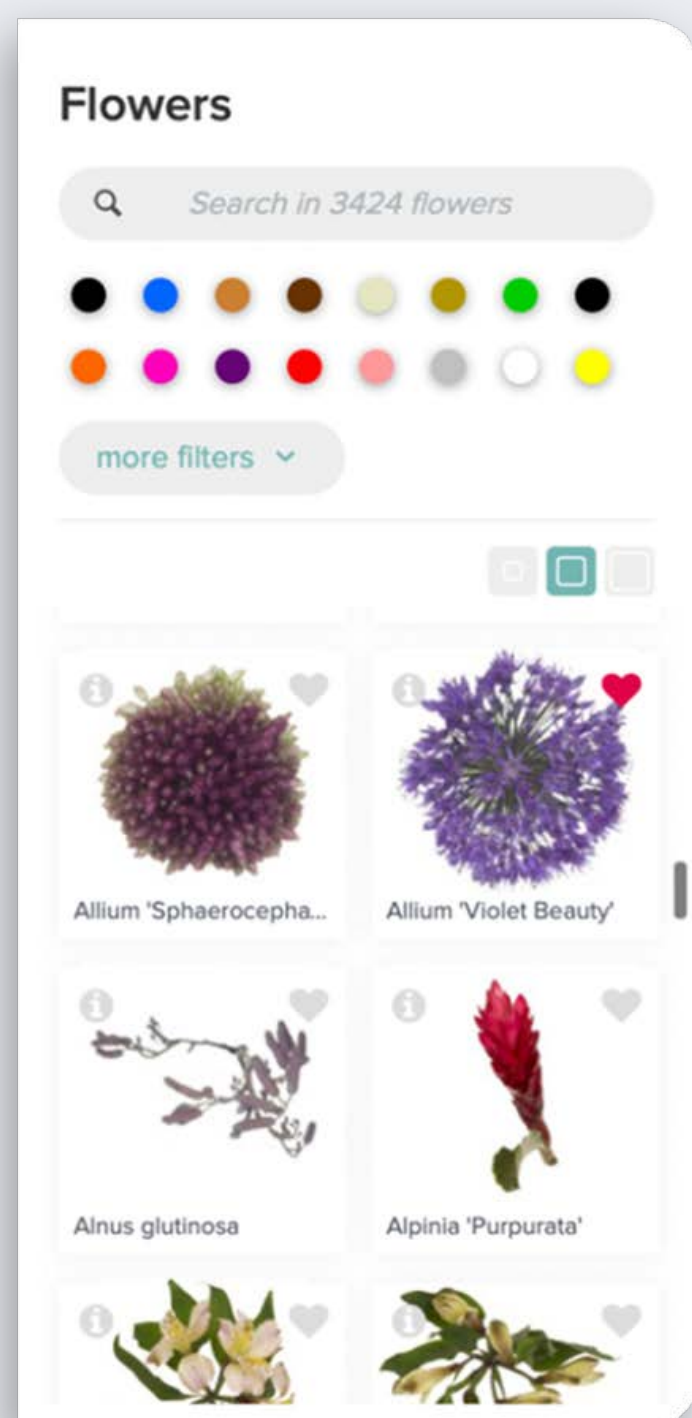

Easily share with teachers, colleagues, students

Theory and practice coming together.

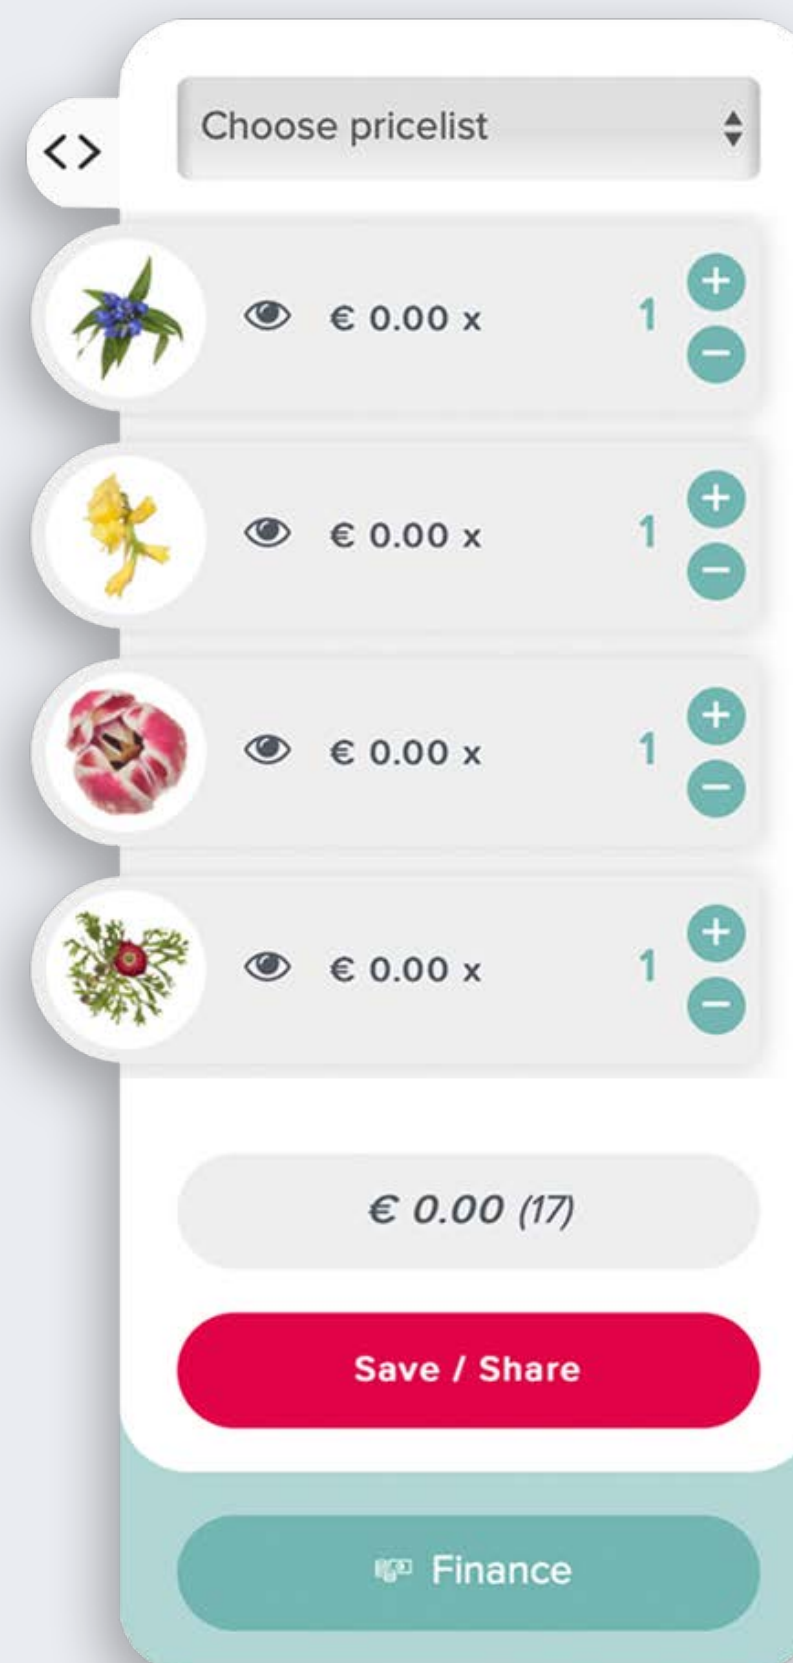

Teach in flowers and their varieties.

Choose out of 3877+ flowers

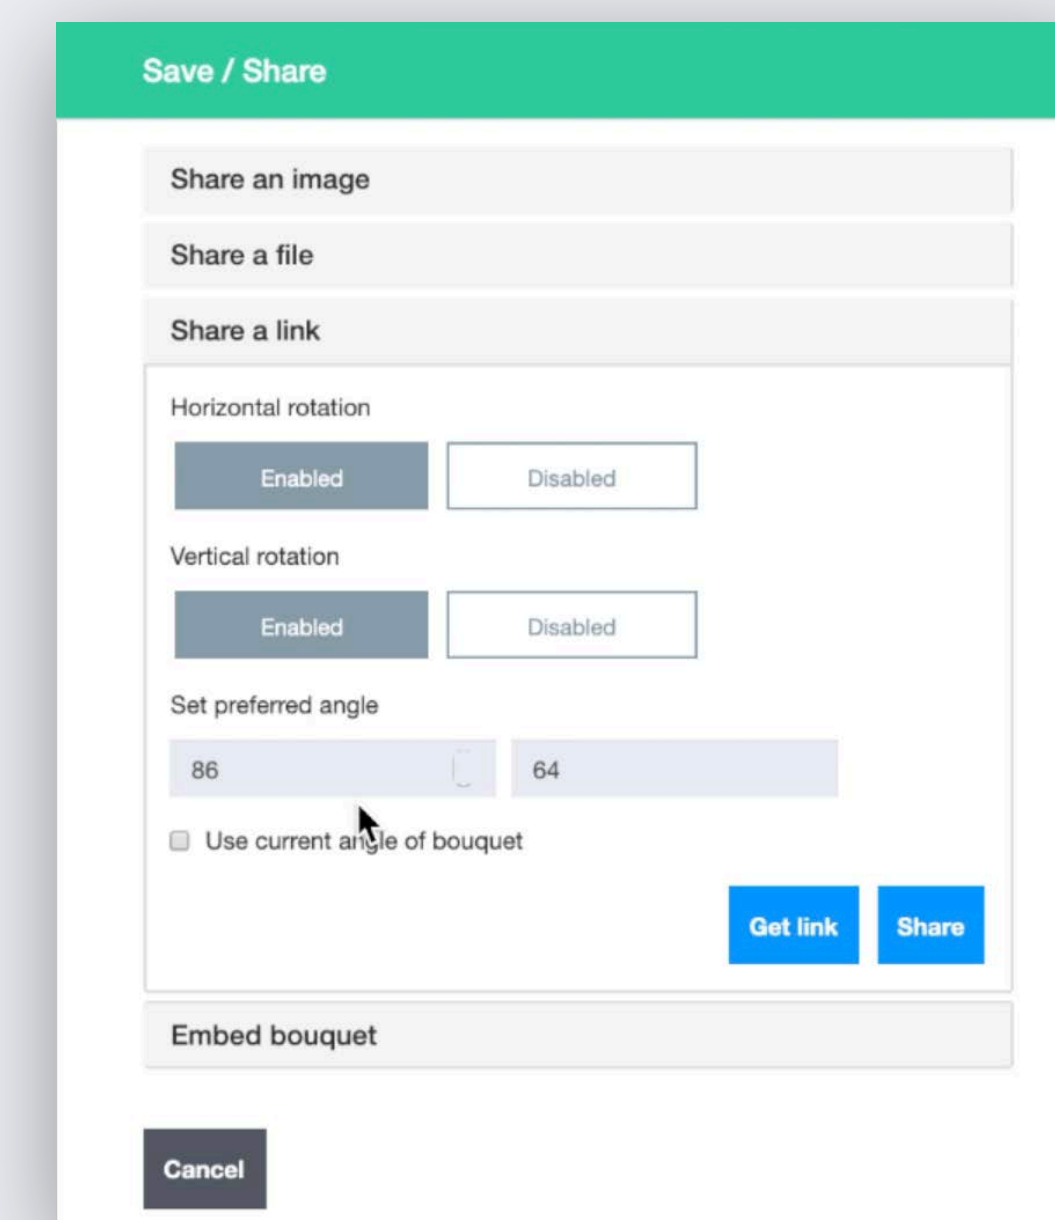

Learn to calculate.

Work with prices, logistics, margins.

Easily share and communicate.

Send via email, share a link
or download your bouquet.
